THEJASWI K

Seeking an entry-level software engineering role that will fully utilize my training and skills while allowing me to learn continuously and make a significant contribution towards the success of the company

EDUCATION

Aug 2019 - May 2023 B.E , Electronics and Communication, Canara Engineering College, Mangalore. CGPA: 7.12 PUC, Ambika Pre University Vidyalaya, Puttur, Dakshina Kannada Percentage: 88% SSLC, Swami Sadananda Sarswati school, Manglore. Percentage: 76% April 2016 - March 2017

June 2017 - March 2019

WORK EXPERIENCE

Training and Certificate - Java Full Stack Developer, JSPIDER

June 2023 - January 2024

Phone: +91 8431518023

- Successfully completed intensive training and internship program with a strong emphasis on Java programming, HTML, CSS, ReactJS, JavaScript, and MySQL.
- Applied theoretical knowledge to real-world scenarios through coding exercises and hands-on projects, gaining practical expertise in software development.
- Developed a solid foundation in JDBC, Hibernate, Spring boot, showcasing the ability to tackle complex challenges in the field.
- · Acquired comprehensive skills in software development, demonstrating a strong commitment to continuous learning and professional growth.
- Successfully translated theoretical concepts into practical applications, proving the ability to contribute effectively to software development projects.
- Tech-Stack: Java, MySQL, HTML, CSS, ReactJS, JavaScript, Spring boot, Hibernate, JDBC

Training and Internship, QSPIDER- Campus - Connect

August 2022 - September 2022

- Underwent intensive training and internship, focusing on C, Data Structures and Algorithms, and SQL.
- Acquired practical expertise in coding exercises and real-world projects. Developed comprehensive skills in these areas, laying a solid foundation for tackling complex challenges in software development.

PROJECTS

GET IT CHECKED - Assignment Plagiarism Checker

- Designed the user interface and seamlessly integrated it with the backend for plagiarism detection.
- Automated the assignment grading process based on the answer key and implemented a marks prediction feature.
- Tech-stack: HTML, CSS, Python, Flask, MySQL

CHEMICAL FREE MOSQUITO REPELLENT

- Conceived and executed a project advocating the use of mosquito repellent for disease prevention.
- Employed ultrasonic sound mode to repel insects and UV MR hybrid mode for mosquito extermination.
- Implemented technologies such as PCB, IC7805, UV LED, Buzzer, KICAD, and 3D Builder to enhance effectiveness.

CERTIFICATIONS AND AWARDS

- Successfully completed a Java Full Stack course and obtained certification from J Spider
- Project Expo Won second prize in an inter-college Project Expo competition 2023.
- Internatioal Cultural JAMBOREE Participated in Science-mela.

SKILLS AND INTERESTS

- Programming Languages C, Java, JavaScript
- Web Technologies / Frameworks ReactJS, HTML, CSS, Spring boot, JDBC, Hibernate
- Databases SQL, MySQL, Oracle
- Developer Tools VS Code, Eclipse, MySQL Workbench
- EC Technologies Digital system design, Verilog
- Personal Skills Analytical and Problem solving, Troubleshooting, Communication, Debugging
- Interests Flute and Yakshagana

LANGUAGES KNOWN

English, Malayalam, Kannada, Tulu, Hindi
